The Arab Fund for Economic and Social Development (AFESD) is organizing the Arab Conference for Cooperation on Climate Change during the period 29-30 May 2023, at the headquarters of the Arab Fund in the State of Kuwait.

The conference aims to promote and support the Arab dialogue on climate change and strengthen cooperation between countries to face its negative repercussions, based on a science- and knowledge-based approach. It will also offer the opportunity to discuss common priorities and how best to mobilize financial resources to finance adaptation and mitigation actions and measures, within a common understanding of what constitutes green finance for climate action in the Arab regional context.

For the Conference’s agenda please visit: https://climate2023.arabfund.org/en

For registration to participate online, please fill the registration form: https://t.ly/j9yA
